

“

When Virajini and her husband moved to the UK from Sri Lanka they consulted the Government's performance league tables to help them choose a suitable primary school for their daughters. The OFSTED report for New Waltham Academy was very impressive.

Virjini says: "I visited and when I talked to the teachers I realised how good the school is. I also really liked the fact that communication is a very high standard and everyone seems to know each other."

”

“

Rebecca says: "The teachers and the head teacher are lovely. Both girls are very settled in their classes and they enjoy going to school and have a good relationship with their teachers. The staff all have a good sense of humour and they are very approachable."

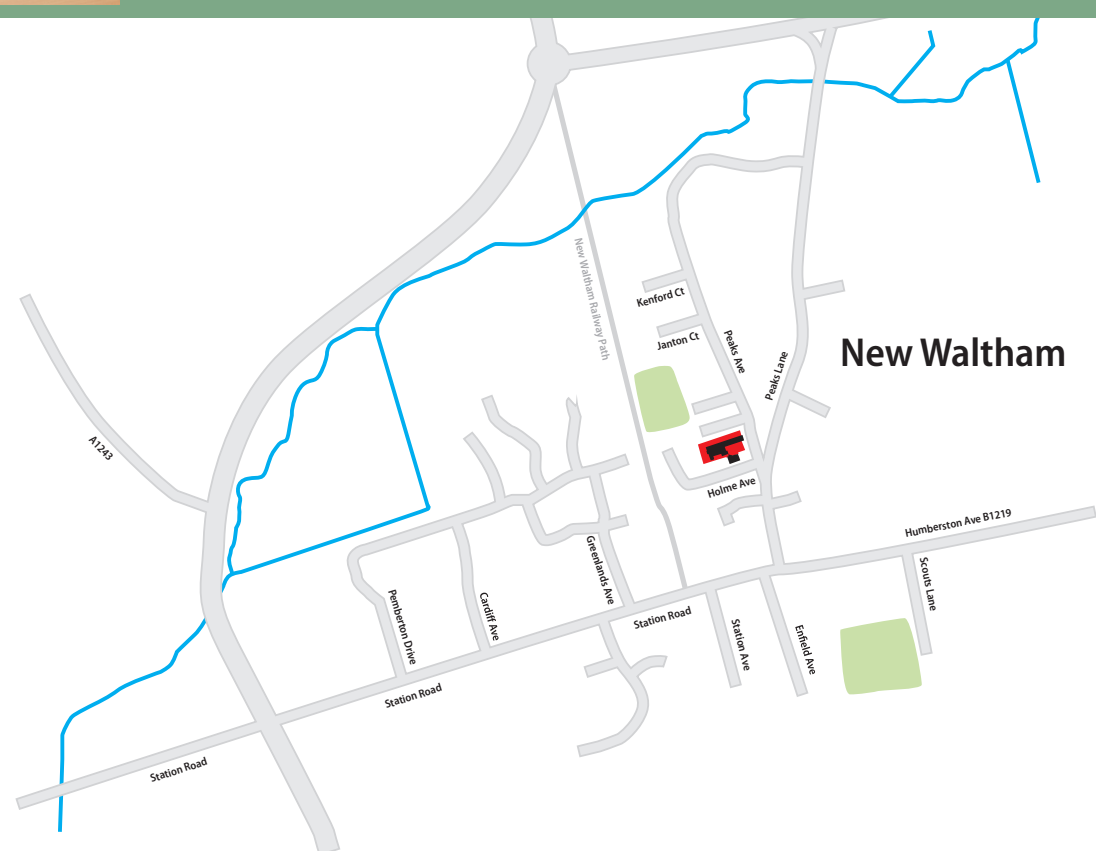

Ellie says: "I enjoy all the different sports activities and festivals. All the teachers are helpful and listen to us."

Hannah says: "I like going to New Waltham Academy, the children are friendly and the teachers are nice. I really like the different sports, especially football."
