

ALL CHILDREN are SUPERHEROES

Elements Primary School

We are very excited about meeting you at Elements Primary School!

We know you are good at lots of things...and some of these things you don't even know you're good at yet!

Read on to find out what six of our children are good at...

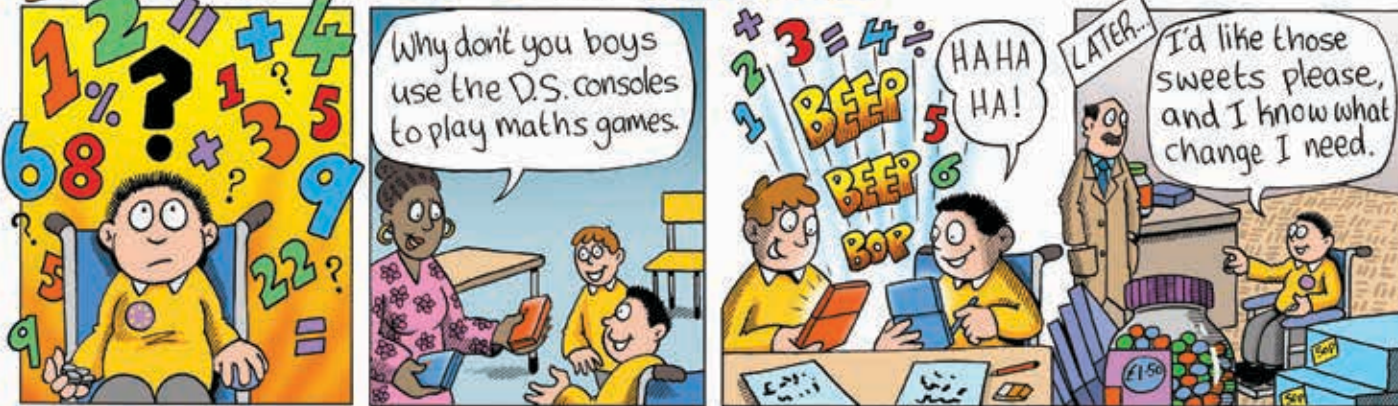

VIKTORIA LOVES HELPING PEOPLE

Viktoria is fantastic at making friends! At Elements Primary School she is a great Playground Pal and brilliant at helping her teacher.

Are you good at making friends?

IT ALL ADDS UP FOR KAYDEN

Kayden thought he wasn't good at Maths, but at Elements Primary School his teacher has given him the confidence and skills to be even faster than his friend's calculator...and he's super-fast at adding up in shops now too!

When you buy something in a shop, do you know how much change you should get?

Miguel wasn't sure he liked school, but at Elements Primary School he has so much fun playing in the playground and learning in class, that he now loves going to school.

Are you excited about learning new things in lesson?

Leah thought she wasn't musical, but at school her teacher encouraged her to play at the whole school Friday Celebration Assembly...and she was a big hit!

Everyone learns a musical instrument at Elements Primary School. Which instrument would you like to play?

JESSICA LEARNS TO READ

Reading at home gave **Jessica** the confidence to read aloud in class, and she is now an Elements Primary School 'Reading Buddy'... helping her friends to be better readers. What are your favourite books to read?

You could bring them to school to read aloud.

A ROARING SUCCESS FOR KAI

Kai loves dinosaurs and was surprised to find dinosaur lessons at Elements Primary School...he now builds dinosaurs in school and has improved his writing through writing dinosaur stories.

How loud can you roar?

What are you
good at?
Elements Primary
School will help
you discover
your talents.

I've found it...
thanks to school
I'm great at
adding up now.
I love numbers!

Elements Primary School

Creative • Unique • Innovative
