

Becky believes Tebay Community Primary School excels at offering outstanding sporting opportunities for all abilities

Becky and Colin Wolstenholme live in Tebay with their children, Nathan, 14 and Patrick, 9 in Year 4. Becky has lots of involvement with the school, not only as a parent, but as a Parent Governor and also professionally as a Development Manager for Eden Valley Sport Partnership.

A school that values each child

Becky says: "Tebay Community Primary School values each and every child. It has a real determination to ensure that we have a thriving school in the community. I'd encourage parents to come and visit it because the school has such a good feel when you walk through the door and the children are enthusiastic to learn. The small class sizes mean staff can concentrate on getting to know each child. They can really meet each child's unique needs and develop their individual skills and talents."

Best opportunities

Working in sport and physical activity, Becky loves how the Headteacher embraces the range of everything on offer locally and caters for all children, no matter what their ability. "She uses the vehicle of PE and sport to give the best opportunities for all the children at the school, which I really like."
