## FOCUS ON THE INDIVIDUAL

"Certain schools suit different personalities and as I hoped, Jevhan has fitted in very well at Worthing High," says Tracey. "The school has allowed him to maintain his individuality and to be his own person without making him feel he has to become just one of the crowd."

## GIFTED AND TALENTED PROGRAMME

"Through the Gifted and Talented programme Jevhan has been able to study Latin, Critical Thinking and Classics, which he can take as an additional GCSE, and to take part in enrichment activities which offer something out of the ordinary. The visit to India with the CRED Foundation was an amazing experience for him and he even shaved his head to raise the sponsorship money to get there!"

## GOOD EDUCATION

Jevhan says: "My teachers have, rightly, pushed me when they think I can do more and I have been more than happy to accept the extra work as it is a means to an end for me. I want to do something useful with my life and a good education is the best way to achieve that goal."

Tracey says: "There are some very strong and inspirational teachers who really motivate the students and Jevhan has made good progress, especially in science and maths."
